

# CA NetMaster® Network Management for TCP/IP: Advanced Administration Tasks Overview 200

## EDUCATION COURSE DESCRIPTION

### SUPPORTED PRODUCT RELEASES

CA NetMaster® Network Management for TCP/IP Version 12.2

### COURSE TYPE, LENGTH, & CODE

- WBT
- 45 minutes
- 06NMR20270

### PREREQUISITES

- CA NetMaster® Network Management for TCP/IP Product Navigation 100 06NMR10100
- CA NetMaster® Network Management for TCP/IP Network Diagnostics 200 06NMR20160
- CA NetMaster® Network Management for TCP/IP Monitoring Your Network 200 06NMR20170
- CA NetMaster® Network Management for TCP/IP: Customizer Overview – Parameters and the INIFILE 200 06NMR20210

### WHO SHOULD ATTEND

- Network Administrators

## Course Overview

CA NetMaster® Network Management for TCP/IP (CA NetMaster NM for TCP/IP) provides for the management and monitoring of your network infrastructure, devices, events and connections to facilitate high availability and performance for TCP/IP-enabled mainframe applications. By monitoring network health, tuning performance and proactively diagnosing and fixing issues before they're likely to affect business operations, the product helps you achieve reliable network connectivity.

This course is designed to introduce the CA NetMaster NM for TCP/IP advanced administration tasks. These tasks include the use of activity logging, timers, and commands that you can use to help maintain your network.

## This Course Will Show You How To:

- Perform advanced alert configuration and administration.
- Manage printers.
- Work with activity logging.
- Explain how to use timer commands to schedule events.
- Customize commands.
- Create INI members.
- Explain the purpose of NCL.
- Identify useful product support commands.
