

CA 1[®] Tape Management: Initialization and Operation

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASE(S)

CA 1 Tape Management
Version 14 and earlier

COURSE TYPE, LENGTH, & CODE

- Web-Based Training (WBT)
- 45 Minutes
- 06TPM20130

Course Overview

A typical z/OS organization processes thousands of tape files daily. These files represent priceless corporate data that needs to be completely protected throughout its lifecycle. CA 1 automates day-to-day tape management while providing comprehensive protection against destruction of tape files. Apart from tape data protection it also enables library management and automation of typical z/OS organizations.

In this course, you will learn how to start CA 1, the messages that are produced, and some of the system abends that may occur.

This Course Will Show You How To:

- Describe the functions of TMSINIT and the proper responses to initialization prompts
- Explain the purpose and nature of tape processing messages
- Describe CA 1 user and system abends and take proper recovery actions
