## Course Overview

CA XCOM<sup>™</sup> Data Transport<sup>®</sup> helps businesses address evolving strategic initiatives that require the movement of mission critical data more quickly, more reliably and, most important, more securely. With a robust architecture that powers high speed, unattended file transfers, CA XCOM Data Transport provides a cost-effective, flexible, and scalable solution that adapts to heterogeneous network environments.

This course provides information on exporting and viewing the CA XCOM history records using the CA XCOM Data Transport GUI or commands on the Windows platform.

## This Course Will Demonstrate How To:

- Generate and view history reports using the CA XCOM Data Transport GUI
- Export and view history records using commands
